

Dr. Mona Dreicer is currently the Program Leader for Nonproliferation and International Security the Global Security Principal Directorate at Lawrence Livermore National Laboratory (LLNL). She is responsible for nonproliferation programs: international material protection and threat reduction, verification and safeguards technology, nonproliferation regimes and policy analysis, and international engagement programs. Before joining LLNL, she was the Director of the Office of Nuclear Affairs at the U.S. Department of State, responsible for assessing compliance of nuclear arms control treaties and working to ensure effective verification of nonproliferation agreements and U.S.-Russia nuclear materials programs. Over the past 30 years, she worked in nuclear-related areas of international security, dose reconstruction, consequence management, environmental risk assessment and protection, and nuclear reactor safety for the U.S. Government (ACDA, State), three U.S. National Laboratories, (Los Alamos National Laboratory, LLNL and the Environmental Measurements Laboratory), the International Atomic Energy Agency's Department of Nuclear Safety, and a French nonprofit research organization (CEPN).
